

PRESS RELEASE - For Immediate Distribution

eFACTOR3: CELEBRATING 10 YEARS OF INDUSTRY EXCELLENCE

August 2018 - Equipment supplier eFACTOR3, LLC is pleased to announce it's celebrating its 10th year of operation.

BACK STORY

Founder and company president Hartmut Bendfeldt launched the company on August 8, 2008.

At the time, Hartmut had a combined 18 years experience in designing and servicing equipment, including equipment in the size reduction industry. With a keen understanding of environmental, engineering and equipment issues he started eFACTOR3.

1

From Hartmut:

“We’ve grown significantly from when we first started out. Initially our emphasis was on shredding for recycling and waste to energy installations. We’ve since expanded to include full waste recycling, size reduction and plastic processing and recycling lines.

eFACTOR3 has forged important partnerships with world class manufacturers for waste shredding, screening, material handling and separation. We’ve also picked up the MAS line of innovative plastic processing machinery - conical, co-rotating twin screw extruders and continuous melt filtration systems - known for its high product quality and very low energy consumption, giving us a significant edge over competing equipment.”

SECRET SAUCE

“Basically’ it’s been all about focus.

- Focus on the product: offer innovative, powerful machines that do what they’re designed to do - and do it well.
- Focus on the people: build a strong, dedicated team inhouse and on the road, strengthen partnerships with our industry suppliers, and offer smart solutions that create value for our customers.
- Focus on what’s ahead: anticipate the industry’s needs and respond with innovative technologies that address the issues. ”

WHAT'S NEXT FOR eFACTOR3?

“We just finished revamping our website and launched a fresh new design. The updated layout offers more content and videos, detailed APPLICATIONS sections and an easy-access PRODUCT SHOWCASE right on the homepage. Overall, it offers a better user experience. Check it out, www.efactor3.com.

We're also in the process of opening a *Trial Facility and Laboratory* just outside Charlotte, North Carolina this coming fall. Details coming soon!

Our business is geared towards major growth. We anticipate doubling our staff/manpower in the next 5 years.

As we celebrate our 10th year of operation, we'd like to extend our sincere thanks and appreciation to our customers and business partners without whom our success would not be possible.”
